

## Coming soon - access your information through our Patient Portal

Royal Berkshire Hospital NHS Trust is constantly striving to take advantage of new technology, to change the way patients and RBH work together to improve your health, safety and hospital experience.

Royal Berkshire Hospital Trust are excited to offer a new secure patient portal, giving you access to your medical information and appointments through our new patient portal.

**From Tuesday 14 March 2023**

**All Royal Berkshire Hospital patients over the age of 18 will be able to:**

- + View upcoming appointments, key health metrics, medical letter, and some test results.

**Maternity users, pre-operative patients and gastroenterology patients will be able to:**

- + Complete health questionnaires online at home ahead of their hospital appointment. Questionnaire access for other specialties to follow.

**ENT and Rheumatology outpatients will be able to:**

- + View, amend and cancel some appointment types through the portal. More specialties and appointment types will offer this service in the future.

**Once the portal is available, you will receive an SMS message to invite you to join up.**

For more information, or for help using the portal, ask any member of our health care team or visit:
